

## ORBIT SOFTWATER

### Showering Reimagined

#### DESIGN

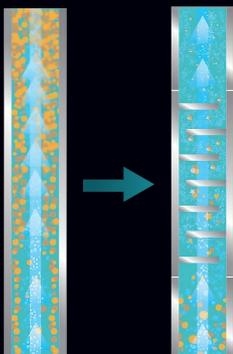

The ORBIT SOFTWATER shower head features a sleek, contemporary design that brings a fresh look to any bathroom. It is the perfect, simple upgrade to elevate your daily shower experience.

#### TECHNOLOGY

##### AIRCORE+CATALYTIC SOFTWATER

Aircore technology infuses the water stream with air to deliver a powerful, full-bodied flow while significantly reducing water consumption by up to 50%. The Catalytic SoftWater system effectively inhibits limescale buildup, enhances mineral solubility, and promotes healthier skin and hair with every shower.

Ecocamel shower heads deliver a premium, spa-like experience powered by the latest water and energy-saving technologies.

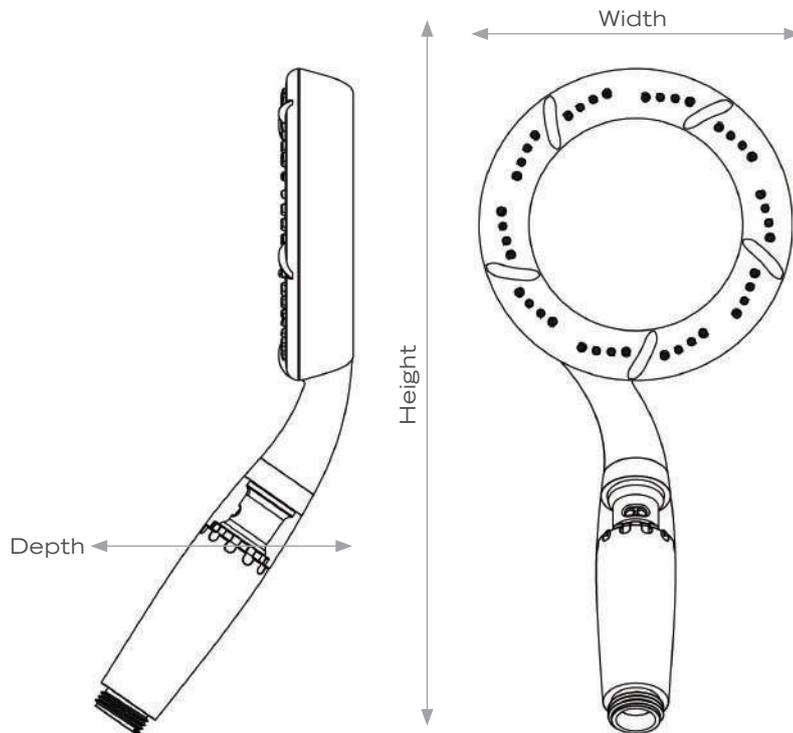

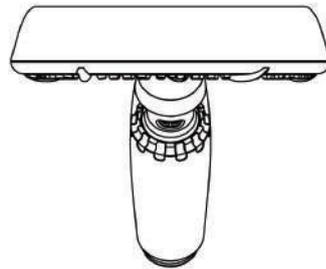

Our innovative range features the revolutionary Aircore + Catalytic SoftWater technology. By infusing the water stream with air while conditioning hard water, it significantly reduces water consumption without compromising on a powerful and refreshing flow.

## ORBIT SOFTWATER
